SUMMARY

Passionate Full-Stack Developer, currently studying at École 1337 (42 Network). Nearly 2 years of professional experience in backend and full-stack development, specializing in Java/Spring Boot architectures, REST APIs, and relational databases (PostgreSQL, MySQL). Strong technical discipline and autonomy developed through the peer-learning model of École 1337. Seeking a Full-Stack Developer position with a particular interest in building robust software solutions and large-scale web applications.

SKILLS

Languages	Java, Python, PHP, JavaScript, TypeScript, SQL, C
Backend	Spring Boot, Django/DRF, Laravel, Hibernate/JPA, JWT, REST APIs, Swagger
Frontend	Angular, React, HTML5/CSS3, Sass/SCSS, Bootstrap
Databases	PostgreSQL, MySQL, MongoDB, Complex Queries, Relational Modeling
Tools	Git, GitHub, Postman, Maven, IntelliJ IDEA, Linux
Spoken Languages	Arabic (native), English (advanced), French (intermediate)

WORK EXPERIENCE

Full-Stack Developer — Automize (Freelance) Apr 2023 – May 2024

- Built 3 full-stack business applications using Django/DRF: a Canadian school platform (real users, 50+ REST endpoints, team of 3), an online course management app, and a parcel delivery management app.
- Designed and documented secure asynchronous REST APIs via Swagger, deployed on Heroku and OVH Cloud.
- Managed source code and team collaboration via Git/GitHub.

Full-Stack Developer — Bzcorp Oct 2022 – Dec 2022

- Solo development of a complete real estate rental management application for Marrakech: Spring Boot REST API with JWT authentication, Angular frontend.
- Database modeling and integration using PostgreSQL via JPA/Hibernate.

Backend Developer Intern — Diidasko Technology Oct 2021 – Dec 2021

- Designed a school management REST API in Spring Boot: 20+ endpoints documented via Swagger, MySQL database (JPA/Hibernate), JUnit unit tests.
- Optimized complex SQL queries and restructured JSON responses.

PROJECTS

Knowplus — E-learning Platform [knowplus.be](#)

Full development and technical lead of a Belgian e-learning platform in Django/Python, deployed in production with real users. Features course, module, user, and admin dashboard management.

RentEase — Rental Management Spring Boot · Angular · PostgreSQL

Complete rental management application: Spring Boot REST API with JWT authentication, Angular frontend, relational modeling with PostgreSQL via JPA/Hibernate.

EDUCATION

2025 – present Software Engineering — **École 1337 (42 Network)** Benguerir, Morocco
Systems architecture C/C++, advanced algorithms, memory management, peer-learning.

2022 – 2024 Full-Stack Digital Development — **OFPPT / ISGI** Khouribga

2019 – 2021 Web Development Training — **YouCode | Youssofia** Youssofia
